

FORSVARSAKADEMIET

Undervisningsevaluering beslutningsreferat

Uddannelse: MMS	Kursus/modul/fag: Grundmodul militære operaitoner
Ansvarlig underviser samt medundervisere: Thomas Crosbie	Institut: IMO
Evalueringsperiode: 2021	Dato: 27-04-2022

Følgende skal fastholdes og evt. udvikles:
Overall, the course content and structure will be maintained moving forward.

Hvad vi gør noget ved:	Hvordan	Ansvar	Termin
We will upload documents earlier, whenever possible.			
We will copy best practices in Moodle website design at FAK.	Kristian Brobæk Madsen as POC for updating Moodle layout.		
Better manage student expectations.	Potentially include a section on each week that is no assigned readings, setting this aside for reading and class time on topical issues. More clearly communicate goals of course, particularly re. Practical vs. Academic aspects.		
Rework staffing.	Decrease total number of syndicate leaders, and better align their tasks and responsibilities.		
Svanemøllen Internat Dilemma	We recognize that many students feel class obligations between 1700 are unfair when located at Svanemøllen Karserne. We have reviewed the policy and agree that		

Timeline distribution of course evaluation link.	We recognize that the course evaluation link was not distributed to the students at the agreed upon hour due to a decision taken at SAB. Our understanding is that there has been personnel change that will prevent this from re-occurring. We view timely distribution of this evaluation to be mission critical.		
--	---	--	--

Hvad vi ikke gør noget ved:	Hvorfor
Same readings	Some students complained about some of the readings, but they disagree on which readings are weak, indicating that there is a range of preferences and not all students will be happy with all readings.
Locations	Students indicated they want to meet at Nymindegab, but we recognize that this is beyond our control.
Class size	We think the large size of the class contributed to many of the complaints we received, but this is beyond our control.
